DETAILED ACTION

Status of Claims

Claims 10 and 11 are pending.

Preliminary Amendment

The preliminary amendment filed 02/25/04 canceling claims 1-9 without prejudice has been entered and made of record.

Specification

The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a)

Information Disclosure Statement

The Information Disclosure Statement filed 03/29/04 has been entered and made of record. A signed copy of the 1449 is attached herewith.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 11 is rejected under 35 U.S.C. 102(b) as being anticipated by Sheehan (U.S. Patent number 3,558,318) or D'Silva (U.S. Patent number 4,469,688).

Applicants claim compounds of structural formula (I), wherein the substituents are as defined.

Sheehan discloses identical compounds useful in the dye industry. See column 3, lines 48-55 and column 4, lines 1-9.

D'Silva discloses a pesticidal compound identical to an instant compound. See column 4, example 1.
